Subject: Select Board Agenda - Addition to the ORC Winter Semester Work Plan - District 913 Table

Hi Everyone,

Discussions over the past week involving a pending project in *District 913 – Rockport Downtown* have uncovered an oversight which penalizes multi-family projects in this district.

I would like to move this forward for discussion with the ORC and therefore will be asking that this item be put on the Select Board agenda as an addition to the '*winter semester work plan*'. Once reviewed by the Select Board the item will then move on to the ORC.

Stacey – I will see you in the morning to work out the specific language for the Select Board agenda.

Regards, Tom
