

Timeline for Revisions Town of Rockport Land Use Ordinance

Ideal schedule adopted by the Select Board August 14, 2006:

June, July, and August: Ideas for ordinance revisions are forwarded to the Planning Office from the Select Board, Planning Board, Zoning Board, and Ordinance Review Committee.

September: The Planning Office schedules a work session with representatives of the aforementioned groups. The proposed '*work plan*' is refined and prioritized.

Late September – early October: The proposed "work plan" is presented to the Select Board at their regular meeting. The Select Board, hopefully, endorses the task list for the upcoming year – directing the process to begin.

October – March: The Ordinance Review Committee works through the Work Plan.
